BRUSHES

Invest in a variety of hairs, shapes and sizes. I work with a mix of hairs (synthetics, mongoose, sables, and bristles) in a variety of shapes (flats, rounds, filberts) and sizes (from 0 to 12). For beginners, I would recommend starting with a selection of good quality but inexpensive synthetic flat or round brushes (sizes 0, 2, 4, 6, 8, 10)
